## Displaying the Time Frames Page

All time frame tasks are performed from the Time Frames page. To display this page, click the **Time Frames** icon on the menu bar:

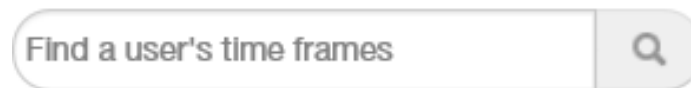

The following figure shows an example of the Time Frames page.

A screenshot of the Time Frames page in a web application. The page has a navigation bar with icons for Home, Call Center, Users, Conferences, Auto Attendants, Call Queues, Time Frames (highlighted), Music On Hold, Inventory, and Call History. Below the navigation bar is a breadcrumb trail "Time Frames / kevin.netsapiens.com" and a search field "Find a user's time frames" with a magnifying glass icon. To the right of the search field is a red "Add Time Frame" button. Below the search field is a table with three columns: Name, Description, and Owner. The table contains two rows of data.

Name	Description	Owner
<a href="#">Holidays</a>	<a href="#">Specific Dates</a>	kevin.netsapiens.com
<a href="#">MF95</a>	<a href="#">Days and Times</a>	kevin.netsapiens.com

A search field at the top-left of the page allows you to review a specific user's personal time frames by entering a user time frame, and then clicking the magnifying glass icon:

The  button at the top-right side of the page refreshes the information on the page.
